The *Names* of the said *Principal Citizens* were as follows.

For the *Lord Mayor's Company, viz.*

2. *Mercers*, Mr. *Nicholas Cook.*
3. *Grocers*, Sir *John Cutler* Kt.
4. *Fishmongers*, Mr. *John Bathurst.*

Which *Service* being performed, the said Twelve Citizens repaired to *Dinner*, room being left for them at the lower end of the *Second Table*, on the *East-side* of the *Hall*, next below the *Aldermen.*

And it is to be noted, that the *Office* of *Chief Larderer* to the KING, was this Day executed by *George Lord Bergavenny*, as *Lord* of the *Manour* of *Scoulton* in *Norfolk*, with a *Salvo Jure* to the *Lord Maynard*, who claimed the same as *Lord* of the *Manour* of *Easton* on the *Hill*, in the County of *Essex.*

Their MAJESTIES having Dined, arose from the *Table*, and *Water* being brought Them to wash, with the same Ceremony as before Dinner, Their MAJESTIES washed; and Grace being said by the Bishop of *Durham*, Clerk of His MAJESTIES Closet, They received again Their *Regalia*, which had been held near Them all *Dinner* time: And thus, with Their CROWNS on Their *Heads*, and bearing the *Orb* and *Scepters* in Their *Hands*, and being attended, and Their *Trains* born as before, and the *Four Swords* and *Scepter* with the *Dove* being born before His MAJESTY, They withdrew, about Seven of the Clock, into the *Court* of *Wards*, where the *Crowns*, *Orb* and *Scepters* being delivered to the *Dean* of *Westminster*, and *Master* of the *Jewel-House*, Their MAJESTIES departed in the same manner as They came thither, extreamly well satisfied with the great *Order* and *Magnificence* that appeared in every part of this GLORIOUS SOLEMNITY.

After which, the *Nobility*, and all *Others*, who Dined in *VVestminster-Hall*, departed severally to their respective Aboads and Habitations, highly pleas'd with such a *Royal Entertainment*; but more especially for the great Honour they had to attend Their MAJESTIES on so Glorious an Occasion, as that of Their CORONATION.

The Day was concluded with Bonfires, Ringing of Bells, Royal Healths to Their MAJESTIES, and all other Expressions of an Universal Joy, Duty, Loyalty and Affection. And for the Conclusion of the Solemnity, most *Excellent Fire-works* were prepared upon the *River* of *Thames*, over against *VVhitehal*, for the Entertainment of Their MAJESTIES and the *Court*; which, by reason of the great Fatigue of the Day, were deferred till the next Evening.

Descriptio Festivorum Ignium super Fluvium Thamisim exhibitorum, quo die sacrabantur Rex JACOBUS Secundus, & MARIA Regina.

IGnis, Elementorum omnium, acerrimum & maximè indomitum, ad Jacobi *Regis Inaugurati diem celebrandum, exuit naturam suam; totusque mansuetus & jucundus Festivis exercitationibus vacavit, nempe decebat, in honorem Serenissimi, Clementissimique Domini intempestivam id temporis feritatem deponere.*

Flammæ ex angustiis, quibus arctabantur, impatienter eluctantes, non sine ingenti fragore perruptis claustris, quasi plausu edito, lætæ prosiluere. Dein subitò exortis innumeris ementitis Stellulis, novo & insueto Lumine coruscabat Aer. Quin & in ipsis aquis, amici, pristinæque litis immemores, discurrebant Ignes. Illo die Natura famulabatur Arti, dum volatiles Ignes in imperatas sibi Figuras contorquentur, & inscriptæ Nomina Regum nascuntur Flammæ. Cumque aliàs Cœlum in Terram detonare soleat, vidimus, inverso rerum ordine, Terram in Cœlum intonantem; non sine stupore Cœlitum, dum terram spectabant imitantem tonitrua, & innocua fulgura ejaculantem: Nihil ad terrorem & minas, nihil ad noxam aut damnum, verùm ad hilaritatem omnia efficta & simulata fuere; Nam sicut Arcus Cœlestis (quam Iridem vocamus) variis depictus coloribus, sed sine nervo & sagittâ, non nocet sed oblectat; Ita & Ignes, pluribus involucris constricti, magnoque nisu semet explicantes, & in varias formas evolventes, non tam sævire quàm lascivire videbantur.

Id certe in rem foret humani generis, si, ad exemplum illius diei, dirum illud Moguntini Monachi, dixerim, an inferni Dæmonis, inventum, cujus & atrum colorem & Sulphureum halitum etiam nunc refert, (pulverem nitratum intelligo) à cædibus & incendiis ad ludicras artes, & instrumenta lætitiæ, transferretur.
